

Note to Applicants: This application form is to be used if the Minister of Municipal Affairs and Housing is the approval authority for the proposed plan of subdivision or condominium description. In this form, the term “subject land” means the land that is the subject of this application.

Instructions

Become familiar with the Provincial Policy Statement before completing this form and submitting the application.

Table B (Significant Features Checklist) is intended to assist the municipality or planning board to determine whether significant provincial features or circumstances may be affected by a plan amendment which proposes to change the use of a specific site. It describes potential information needs.

Completeness of the Application

The information in this form that **must** be provided by the applicant is indicated by **black arrows** (➤) on the left side of the section numbers. This information is prescribed in the Schedule to Ontario Regulation 196/96 made under the **Planning Act**. The mandatory information must be provided with the appropriate fee and draft plan. If the mandatory information, including the draft plan and fee are not provided, the Minister will return the application or refuse to further consider the application.

The application form also sets out other information (eg. technical information or reports) that will assist the Ministry and others in their planning evaluation of the development proposal. To ensure the quickest and most complete review, this information should be submitted at the time of application. In the absence of this information, it may not be possible to do a complete review within the legislated time frame for making a decision. As a result, the application may be refused.

Submission of the Application

The Ministry needs:

- 6 copies of the completed application form, and
- 12 copies of the draft plan, and
- 2 copies of the draft plan on 8½" x 11" paper, and
- 6 copies of the information/reports if indicated as needed when completing the relevant sections of this form. The nature of the information/reports varies with the type of land uses proposed and the existing land use and topographic features, and
- The applicable fee as indicated on the Ministry's Fee Schedule.

NOTICE - MAH PROCEDURES FOR PROCESSING APPLICATIONS FOR PLANS OF SUBDIVISION/CONDOMINIUM

Effective **August 1st, 1996**, the Ministry of Municipal Affairs and Housing (MAH) has instituted administrative changes to streamline the processing of subdivisions/condominiums on private services requiring Part VIII Approvals under the Environmental Protection Act (EPA) and/or requiring entrance permits for or potentially impacting on Provincial highways from the Ministry of Transportation (MTO), for which MAH is the subdivision/condominium Approval Authority.

Where MAH is the subdivision/condominium Approval Authority, applicants are to complete the Ministry's subdivision/condominium application and a Draft Plan, submit it to the Part VIII Approval Authority [Health Unit or Ministry of the Environment (MOE)] and/or the MTO Corridor Policy Office, pay their inspection fee and complete the instructions of the Part VIII Authority/MTO prior to the inspection of the property. (A servicing options report or staking of the site may be required by a Part VIII Authority.) Pre-consultation discussions with MAH should occur at this stage to also determine if a hydrogeological study is required before the Part VIII/MOE can comment on the technical suitability of the lots for private services. Upon completion of the inspection and report, the Part VIII Authority/MTO will forward their comments and the Plan to the applicant/agent and MAH. At such time, the applicant has the choice to proceed and make application for subdivision/condominium along with our processing fee. If the report(s) is not favourable, the applicant is saved the expense of a formal application to MAH. Failure to have Part VIII/MTO comments for MAH at receipt of the formal application may delay or restrict MAH's ability to make a decision or issue a favourable decision on the subdivision/condominium.

NOTE:

MAH's assessment of a subdivision/condominium is also based on other environmental and land use planning factors. A major consideration is conformity with local official plans and zoning. Applicants should discuss their proposal with MAH or the local municipality/Planning Board to ensure, prior to obtaining Part VIII/MTO comments, that the proposal conforms to the official plan and local zoning standards. Further, should a proposal potentially impact on other Provincial Policy interests or, the ultimate development of the site require a permit/certificate before site alterations are made or certain structures are erected, applicants should discuss the same with the affected Provincial Ministry or, the permitting certificate Agency and the Planning Approval Authority prior to formal application under the Planning Act. For example, permits may be required from a Conservation Authority or Ministry of Natural Resources for alterations to shorelines or for docks. And, the Ministry of Citizenship, Culture and Recreation advises that an archaeological assessment may be required if a site has archaeological potential. If you have any questions, contact the Ministry of Municipal Affairs and Housing at the office closest to you as listed on page 9.

Bill 38, proclaimed on May 5, 2001, provides for new types of condominiums under the new Condominium Act. These types are listed under section 3.1 of this application form.
